DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 2, 5-13, and 15-20 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 1, 2, and 5-13 are allowable over the prior art of record because the prior art of record does not teach or disclose a temperature sensing method in which pulses of optical radiation are launched by a laser diode into an optical fibre and optical radiation backscattered from the fibre is detected, the method comprising a first signal from Raman scattering recorded at the anti-stokes Raman wavelength from a pulse launched by the laser diode in a laser mode and a second signal from Rayleigh scattering recorded at the anti-Stokes Raman wavelength from a pulse launched by the laser diode in a light emitting diode mode, in combination with the remaining limitations of the claims.

Claims 13 and 15-20 are allowable over the prior art of record because the prior art of record does not teach or disclose a distributed temperature sensor or method comprising a first signal from Raman scattering recorded at the anti-Stokes Raman wavelength from a pulse launched by the laser diode in a laser mode and a second signal from Rayleigh scattering recorded at the anti-Stokes Raman wavelength from a pulse launched by the laser diode in a light emitting diode mode, in combination with the remaining limitations of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
